A reminder that 2025 will be the second year for the Junior Division in the Meats Contest. Details and contest breakdown can be found at link above. The Junior Division will run simultaneously with the 4-H Senior Division. Once Juniors have completed their portion of the contest there will be an educational activity for them to participate in.

An example of the scantron sheet that will be used is on the above site. It is imperative to practice filling out the scantron sheet with your participants. Once turned in, there will be no bubbling of answers on the sheets. There will be an effort made to bubble any contestant numbers that are not read by the scantron machine, but NO re-bubbling of answers. We seem to have noticed in the past that if the number/letter inside the circle is covered up, the machine is more likely to read the answer. A good way to judge the completeness of bubbling is after the judge is finished bubbling, have them look over the entire sheet. If they can see any of the numbers/letters inside the circles, they should bubble darker.

Please see attached tentative schedule. Best of luck to you and your team as you prepare for the State Meat Judging CDE. If you have any questions, please reach out.

Sincerely,

Courtney Stierwalt
