

Scenarios for Meeting Planning

Take a few moments to go over these scenarios to establish how you should plan your meeting.

- You are a Jr. Leader Advisor working to plan elections this year. How could you handle elections so that both in-person and virtual members have a vote?

- You are a workshop leader wanting to hold a virtual only workshop on cake decorating. How can you make it engaging and what steps do you need to take for it to happen?

- You want to have an in-person meeting for your club. What do you need to do?

- You are a club leader planning a hybrid meeting. What are some things you can do to help make your virtual youth feel included in the in-person component?

- You are the Jr. Leader President and at your meeting, you hear one member questioning why Susie, another member, wasn't in-person at this meeting even though she was at the community service project a few days ago. You don't want rumors to get started in the club, so what can you do?
