

Cheese Characteristics 2018

Match the following characteristics with the sample number. Mark the corresponding answer on the scantron bubble answer sheet. A sample may have more than one characteristic, so mark all that apply.

Identify the characteristics for samples 1, 2, 3, 4, 5, and 6 only. Nothing should be marked in 7, 8, 9 or 10.

A - Maximum moisture content is 39%

B - Pasta Filata

C - Ripend by mold

D - Origin is United States

E - Origin is Greece

F - Minimum fat is 43%
