

Country Z

- We are called “Workabites.” We work hard for our money and get paid very well.
- Money is very important.
- Everyone has lots of money and in our society it is prestigious to flaunt your money.
- We are independent and don’t want any handouts.
- We like working to earn money, no handouts.
- We do not want to be touched. Touching is done in the privacy of our homes. Touching someone in public means you want to share all your wealth with them for the rest of your life.

- Tall people bow when talking to shorter people, showing them respect and honor.
- People talk slowly ending each word with “ing.”
- Conversations are always about money.
- We have a very sacred ritual. When the bell rings, we stop to meditate. We stand very still, put our hands on our heads until the bell stops. We work hard—religious time is a very quiet, spiritual time.
