**Scoring**

1. During the first half of play there are three types of questions possible:
   
   a. **Regular questions**: each worth 1 point, to which any member of either team may respond;
   
   b. **Toss-up Questions**: also worth 1 point each, and also open for response by any member of either team. The only difference between a regular and a toss-up question will be that the toss-up questions will have a bonus question attached to each, and in general will be somewhat more difficult than the regular questions. Any toss-up question which has a bonus attached will be announced as a “toss-up” question before it is read.
   
   c. **Bonus Questions**: worth 3 points. No part of the bonus question will be repeated nor will any additional information be given to the participants relative to the question. If multiple answers are required, 3 points will be awarded only if all of the required answers are correct. No points will be awarded or taken away if there is less than the required number of answers, or if there are no correct answers. Only the team which correctly answered the toss-up question will be given the opportunity to attempt the attached bonus question. A bonus question attached to an unanswered or incorrectly answered tossup question will be transferred to the next regular open question, which becomes the new toss-up question, until a correct answer is given. If the half ends with an unanswered bonus question, the question dies.
   
   d. **One on one Questions**: Regular questions worth 2 points each shall be addressed only to one member of each team, beginning with the contestants in the #1 chairs (nearest the moderator) and progressing with questions going to the subsequent contestants in the #2, #3 and #4 chairs. There will be the same number of one-on-one questions per contestant, per match.

2. During the second half of play, only regular questions will be used

Notes: Two (2) premium points are awarded to the teams in which each team member seated at the time correctly answered a question (excluding bonus questions.) After earning two premium points, teams may earn additional premium points by repeating the process. Members will not be credited with correct answers toward premium points until the first premium points are awarded.

If a contestant other than the indicated contestant in one-on-one answers the team will lose 2 points.

* In the junior team competitions, there will be no deduction for incorrect answers if the question is read in its entirety. If a junior 'buzzes in' before the moderator has read the final word of the question, and gets an incorrect answer, the team will lose 1 point, and the other team will have the opportunity to answer the question, which will be re-read in its entirety. This does not apply to junior members on other teams.

Procedures
1. All decisions of the moderator, judges, scorekeepers, timekeepers and the event committee are final. Team members shall face the judges; the judges shall face the audience. Individual face-offs will precede team face-offs.
2. No recording of the match or questions is allowed in any manner. This includes use of electronic devices, writing down questions, or any other conceivable method of making a record of the questions asked. The first offense will result in a 2 point deduction from the team associated by the offender, and a second offense will result in disqualification of the team.
3. Under no circumstance will there be a replay of a match in which there was an equipment failure.
4. In the event of a match tie, it will be broken with five (5) tie breaker questions. If a tie remains the first team to earn a point (or because of loss of a point by the other team, has a (1) point advantage) will be declared a match winner based on the scores.

Awards
1. The rank of teams will be determined on the basis of their win-loss record. To place teams eliminated in the same round, the teams will be ranked by the total number of points obtained by each team in the highest round in which they competed.
   a. If there is a tie, each team will be assigned 1 point for each game won. The highest total will rank higher.
   b. If there is still a tie, the team with the most total points in the entire event will be ranked higher.
2. Awards will be presented to the top 5 novice, junior, intermediate, and senior teams. The awards program will be held Saturday afternoon following the Horse Bowl competition in Lily 1-105.
3. The highest scoring senior 4-H team will have the option to participate in the national 4-H event in Louisville, KY in November 2020. The second and third highest scoring senior 4-H teams will have the option to participate in the Invitational Quarter Horse Congress in Columbus, OH in October 2020.
