

## **Activity M- Chopsticks**

1. Use the chopsticks (pencils) and straws to pick up various items that are found on the table.
2. Record on your sheet about your experience, what you learned, and what you discovered.

## **Activity O- Hold On**

1. As a group work together to discuss the various tongs and pliers and determine which works best in gripping and picking up the item without harming it.
2. Use your page to write down a list of all the grippers that you think would hold/pick up your item and choose the one that you think would work best.
3. Test all of the grippers to find out which one works the best. Did the gripper you chose work the best?
4. Record the information on your sheet.
