Photography
Educational materials on "How to" information on taking quality photographs with a camera. Has good basic information on camera use.

Exhibit Introduction

REQUIREMENTS:

1. All images are to be original images taken by the 4-H member
2. Complete a 4-H Photography Record Sheet each year.
3. Photos must have been taken since the last project entry date of the county fair.
4. All poster exhibits are to be mounted on a background board 22 inches by 28 inches, displayed horizontally, mounted on stiff backing (foam board, corrugated board, thin paneling, thin luan board--keep it thin and light.) and covered with clear acetate/plastic.
5. Place standard identification label in the lower right hand corner on poster boards and salon prints. Place your identification label on your board and under your plastic if at all possible. Label should be placed along the bottom of the slide-view. Leave your county ID tag on the exhibit and place the state fair tag over it for those selected as State Fair Entry.
6. Number photo prints on your print boards 1 to 10.
7. Captions under your photographs are not recommended nor are fluorescent posters.
8. Salon prints are one print, either Black & White or Color, printed horizontally or vertically. The print must be mounted on a standard 16 by 20 inch salon mount, displayed vertically and covered with plastic.
9. Sepia tone photographs (mono chromatic) are entered under the Black and White classes.

*designates a State Fair entry possibility. Counties may send two entries from Level One (1), four entries from Level Two (2) and four entries from Level Three (3) for a total of ten exhibits. Being selected as a class winner may not be an automatic State Fair entry. The judge(s) will need to choose the best from each level.

Mounting and Labeling:

- The mounting may be of any color or texture. The pictures are to be neatly and securely mounted. Dry mounting tissue is best.
- Salon mounts are available in most photo and art supply stores. They are available either in plain or with a cutout of the picture area. You may make your own. Matting is not required.
- Label each exhibit with either a county designated size exhibit label or 2" x 4" label stating 4-H'ers name, club, township, grade level, and exhibit level/division. It is recommended that this identification label be placed in the lower right-hand corner of your poster board or salon print and under the plastic, if at all possible. For State Fair entries, do not remove the 4-H member's ID label.

EXHIBIT: Create a video that is no more than 10 minutes in length, begins with an introductory title and ends with credits. The video exhibit is to be MP4 or compatible format and submitted on a DVD, flash/thumb drive, other media storage device, or published to YouTube or another public video internet site. If submitting on a storage device, include exhibitor’s name, video title, and date created. The exhibit is to also include a notebook describing hardware, software, and equipment used. The report should describe how the video was created, date created, designed, challenges, what was learned, etc. The report should include screenshots as the actual video will not be displayed. The judge may choose to view the video in its entirety or a portion. If the video is published to YouTube or another public internet site the report must include the web address should the judge choose to view it.

Requirements

**Level: Digital Photograph Guidelines:**

Exhibit

1. All images are to be original images taken by the 4-H member. Photography exhibits are to be taken by the 4-H members between county project check-in to the next year county project check-in date.

2. Creative/Experimental print sizes must meet the size requirements of your chosen exhibit. It is recommended that the digital image be printed on photographic paper or very high quality copier paper. The paper quality will help in clarity and sharpness.

3. If a photograph is taken with a digital camera is just a straight forward photograph with no changes or augmentation, then it would be the same as one for the regular print board or salon print classes. To succeed as a digital image (as a separate classification) something more should be done to the photographic image.

4. **DIGITAL VS. FILM** Anything that can be done in a dark room, on an enlarger, can be done on a computer, i.e. cropping, color correction, parallax, etc. If an image is digitally altered beyond what can be done on the enlarger, i.e. adding different background, removing buildings or people, adding text, hand-coloring, etc. it should be entered in the "Creative/Experimental" Class. We realize this will be difficult to enforce. We ask your cooperation. We also realize the person with the expensive digital camera and high powered computer has some advantages. By the same token the person with the expensive large format film camera that takes his processing to a custom lab has many advantages over the person with the inexpensive 35mm camera doing their processing at the local retail store.
