

PURDUE EXTENSION

Dear Adams County 4-H Supporter,

The 4-H program teaches children the importance of hard work, diligence, responsibility, discipline and seeing a project to completion. Those youth involved in 4-H Livestock projects get the opportunity to participate in the Livestock Auction which truly allows the youth to see their project through completion. The 4-H Livestock Auction is specifically designed to broaden the 4-Hers understanding of how the livestock industry works. These youth work with their projects for weeks, months or years, allowed to only sell one animal through the auction. 4-H members depend on businesses and individuals in the community to purchase their livestock project in order to compensate for financial expenses. I have heard many youth indicate that they saved up their Livestock Auction money to invest in more livestock, purchase a car, even pay for college.

We invite you to support and reward the hard work of our Adams County 4-H members at the 2023 Adams County 4-H Livestock Auction. This is a great opportunity to support these youth for their hard work and dedication to their livestock while receiving recognition for your participation.
