

Project Title: Pet Rabbit Educational Poster

Description:

Youth can learn about livestock and companion animals through a variety of experiences.

State Fair Entries:

No State Fair Exhibit

Exhibit Guidelines:

Member may choose to exhibit an educational poster on some aspect of pet rabbit science. This Exhibit is open to any 4-H member and is not limited to exhibitors of 4-H Pet Rabbit Live. See Allen County General 4-H Rules: Poster Rule & Label Rule. Each member may enter up to three (3) different project exhibits.

All posters, notebooks, and display boards must include a reference list indicating where information was obtained, giving credit to the original author, to complete the 4-H member's exhibit. This reference list should/might include web site links, people and professionals interviewed, books, magazines, etc. It is recommended this reference list be attached to the back of a poster or display board, be the last page of a notebook, or included as part of the display visible to the public. A judge is not to discredit an exhibit for the way references are listed.

Posters are to be 22"x28" and displayed horizontally and placed in a clear plastic sleeve or covered with clear plastic to protect contents. The poster must be mounted on a firm backing to add stiffness to the exhibit, for example: a foam core board. Display boards should be designed to sit on a table using no more than 36" of tabletop space. Space should be left in the lower right-hand corner to place an exhibit tag provided by Purdue Extension staff.

Judges evaluating exhibits should recognize individual differences and creativity, therefore using information in this document as a guide rather than a requirement.

Exhibit Class Guidelines:

Beginner (grades 3-5)

Member may choose to exhibit an educational poster on some aspect of pet rabbit science

Intermediate (grades 6-8)

Member may choose to exhibit an educational poster on some aspect of pet rabbit science

Advanced (grades 9-12)

Member may choose to exhibit an educational poster on some aspect of pet rabbit science
