**2. Match the type of horse with the uses of the horse.**

Stock Horses	For pleasure and trail riding
Draft	Used in the horse-racing industry
Hunter	Used for farming and to transport freight
Easy-Gaited	Used for working livestock
Racing	Used in both the hunt field and the show ring

**3. True or False. Please circle the T or F. If it is a false statement, explain why it is a false statement.**

T or F      Normally fillies and colts both reach puberty between 12 and 18 months of age

---

T or F      Because fillies and colts reach puberty around the same time it is a good idea to keep them together until they reach 18 months old.

---

T or F      In the winter months mares usually do not cycle.
