- | | |
|---------------------|--|
| French Angora | From France. The coat is bluish white with jet-black hair mixed in. |
| Champagne d'Argent | Short neck. Ears carried erect. Dark slate blue with pearl mixed in. |
| Standard Chinchilla | Oval head set close to the body. Medium wool breed originally from France. |
| Flemish Giant | It is docile and friendly. Known for its wool qualities. Small breed. |
| Jersey Woolly | The body is long and powerful. Popular for pets and exhibition. |

2. Write in the disease or health condition for each description.

	Mites live in the fur and when there are too many it can cause fur loss. The rabbit may scratch the area.
	Mites that are in the ear. Rabbits will shake their head and /or try to dig at their ears. Can cause poor overall health.
	Infection caused by bacteria. Can result in a blocked tear duct. Discharge from the eye.
	Caused by a middle ear infection the neck is severely twisted to one side or the other.
	It is transmitted from animal to animal and humans can also get it. Signs are crusty sores in a circular pattern.
