## Housing and Equipment Crossword

### Across

2. The most important nutrient for a rabbit.
5. Hutches should be built to protect the rabbit from \_\_\_\_\_.
6. Cages constructed of this are used only indoors.
8. A baby rabbit.
10. Cages designed to house one or more rabbits while protecting the animals from inclement weather and predators.
11. Outside rabbit hutches should be placed at the north side of an existing structure so they do not receive direct \_\_\_\_\_.

### Down

1. Rabbits become frightened easily and are often very \_\_\_\_\_.
3. The movement of fresh air to replace other air.
4. A female rabbit.
7. A separate building; an area in an existing building; or an outside area where rabbits are housed is called \_\_\_\_\_.
9. Choose a feeder with a screen or holes in the bottom to allow \_\_\_\_\_ to filter out of feed.
