5. Label the following breeds according to the type of breed classification: Ram, Ewe, Dual Purpose

_____ Polypay _____ Cheviot _____ Columbia
 _____ Hampshire _____ Targhee _____ Oxford
 _____ Merino _____ Romney _____ Southdown

6. Find the following on the feed label:

What is the active drug ingredient?

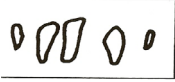

What is the salt content of the feed?

What is the highest ingredient in the feed?

What form of zinc is in the feed?

What are the minimum and maximum Medication levels in the feed?

7 Identify the age of the following sheep by their teeth

	Lamb's teeth
	Yearling's teeth
	2-Year-old's teeth
	3-Year-old's teeth
	4-Year-old's teeth
	Older sheep
	Broken Mouth

Net Weight 50 Pounds

GRO-MOR

1.6% Lamb Finisher B

Medicated
 For the prevention of coccidiosis caused by *Eimeria ovina*, *E. crandallis*, *E. ovinoidalis*, *E. ninakohlyakimovae*, *E. parva*, and *E. intricata*.

Active Drug Ingredient

Lasalocid 30 gm/ton

Guaranteed Analysis

Crude Protein	Min. 16.00%
(Includes not more than 1.0% Crude protein equivalent from nonprotein nitrogen)	
Crude Fat	Min. 2.50%
Crude Fiber	Max 4.75%
Calcium	Min. 0.40% Max. 0.50%
Phosphorus	Min. 0.60%
Salt	Min. 0.40% Max. 0.60%

Ingredients

Grain Products, Animal Protein Products, Plant Protein Products, Dicalcium Phosphate, Calcium Carbonate, Salt, Potassium Chloride, Magnesium Oxide, Vitamin A Acetate in Gelatin, D-Activated Animal Sterol (Source of Vitamin D3), Vitamin E Supplement, Menadione Dimethylprimidinol Bisulfite (Source of Vitamin K), Riboflavin Supplement, D-Calcium Panrothenate, Niacin, Vitamin B12 Supplement, Choline Chloride, Zinc Oxide, Ethylene Diamine Dihydrodiode, Cobalt Carbonate, and Sodium Selenite.

Caution

The safety of Lasalocid in unapproved species and breeding animals has not been established. Do not allow horses or other equines access to Lasalocid as ingestion may be fatal. Feeding undiluted or mixing errors resulting in excessive concentrations of Lasalocid could be fatal to sheep.

Feeding Directions

Feed as the sole ration to lambs from 80 pounds body weight to market. Feed continuously to provide not less than 15 mg. nor more 75 mg. of Lasalocid per head per day depending on body weight. Provide plenty of clean fresh water.
