

4-H Sheep Project

Boone County
Record Sheet B
Grade 9

Name: _____ 4-H Club _____

1. Identify the following bones on a lamb:

2. If you bought a 45 pound lamb on March 1 and it had an average growth rate, what will the lamb weigh on July 23?

3. Fill in the table :

Treatment Date & Time	Animal ID Species Description	Condition Being Treated	Estimated Weight	Treatment Given (Medicine)	Print Name of Person Who Gave Treatment	Instructed Withdrawal	Results Comments	Date & Time Withdrawal Complete	Vet Name address Phone

Today is May 10. You have a Suffolk market lamb weighing 120 pounds named "Benny" with ID 92112. The vet has looked at him and determined that he has worms. He gives you Levisale for the worms. Fill in the chart. Information from the label is as follows: 2ml per 100 pounds not to exceed 10 ml in one shot. Withdraw should 10 days prior to market.

4. Name four things you look for to determine quality grades for lamb carcasses:

5. You have a lamb that weighed 75 pounds on June 1 and now weighs 125 on July 25 what is the average daily gain for this lamb:

6. Describe what Monkey Mouth looks like?

7. Identify the following feed ingredients:

A. _____

B. _____

C. _____

D. _____

E. _____

F. _____

G. _____

H. _____

8. Describe how to deworm a sheep with a syringe:

9. If you wanted to start breeding your ewes on September 1 when would you want to flush the ewes for breeding.

Answers to all questions can be found in the Sheep Resource Handbook 4-H 194R
