MRCC's Soil Temperature Climatology

Spring fieldwork is starting, but fluctuating temperatures make soil conditions critical; learn how current temperatures compare to historical averages using the Soil Temperature Climatology Tool. This tool provides key insights for optimal planting, discover how to use this data to make informed decisions for your crops.

11am- Chair Exercises for Seniors
Tailored for seniors seeking to enhance their mobility, strength, and balance, all from the comfort of a chair. These safe, low-impact exercises cater to all fitness levels, ensuring participants can gradually build their abilities or increase intensity as needed. The program emphasizes adaptability, offering modifications to make exercises easier or harder. Perfect for those looking to stay active and healthy without the strain of standing workouts.
Mandy Gray, Hancock County

Noon- Reducing Stress Through Gardening
Did you know that gardening is a great way to reduce stress? If you have a small patio or a large garden, research shows gardening can reduce stress and improve your mood. The sunlight, fresh air, and influx of vitamin D is good for your health. Let's explore this stress reducing activity and make plans for your home area.
Susan Peterson, Hamilton County

Reserve your spot by May 9th by calling 765-482-0750 or email boonece@purdue.edu
