Spring has sprung (and so has typical southern Indiana severe weather)! We hope you are all staying safe during the last few weeks of storms.

During the last weekend in March, I had the privilege to lead the newest statewide 4-H trip, Indiana 4-H Teen Leadership Weekend. Months of planning, coordinating, and too many emails to count culminated last weekend into one of the best 4-H trips of the year! Over 165 youth from across Indiana came together to gain new leadership skills, network with their peers and Indiana 4-H Foundation Board members, and discuss solutions to issues facing the 4-H programming. Pictured below are the four Daviess Co. youth who represented our community so well during this experience.

Our young leaders continue to grow, and will soon be the young adult leaders that take our communities into the future. As an educator, my favorite opportunity is to nourish and encourage our young people to become all they can be. This group of students carried themselves with humility, respectfulness, and determination as they entered the conference. They were eager to learn and provided great insights to the issues facing Indiana 4-H. I would encourage all of our 4-H families to look for high potential in our young people, and to encourage them and their passions.

Wes Richardson, 4-H Youth Development Educator

### 10-Year Member Info

All 10-year members should have received an email with a short survey and the request for a senior picture. We will use that information at livestock shows, for the 4-H Handbook, and to recognize you all publicly throughout the year. Please respond to that survey as soon as possible. If you can't find that information in your email contact the Extension Office.

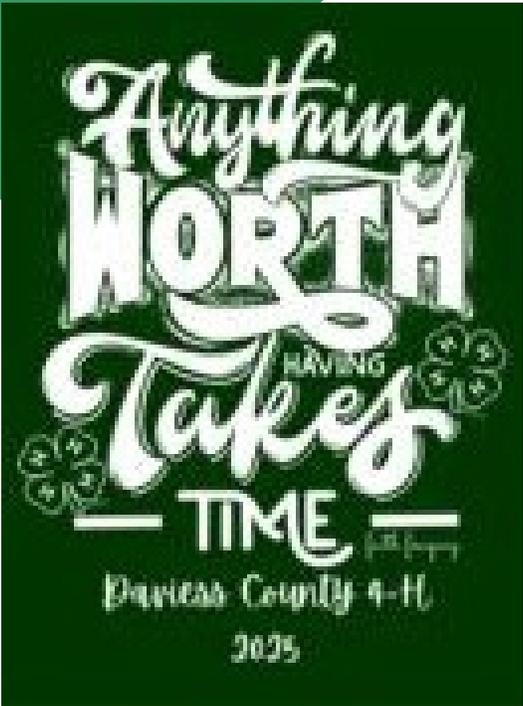

## STEM with Barr-Reeve 4th Grade

In March, 86 Barr-Reeve 4th grade students participated in the Creative Construction program. The program includes 4 sessions, each with a different building material. Students work individually and in groups to use their creativity to build different structures. Each time they build they are given a small set of regulations, but are later on presented with new problems or new necessary functions of their build. They then use problem solving skills, critical thinking, and teamwork to come up with the most efficient solutions. Students who participated stated they learned how to work better in groups, use their imagination, and work through adversity. Most importantly, they had fun!

Thank you again, Faith F. for your amazing T-Shirt Design this year.

# 4-H T-SHIRT SIGN UP TIME

**Please click the link to take you to a Google form to fill out your T-shirt sizes. You will need to fill out the form for each 4-H member, Club Leader, or County Volunteer (committee member, director, etc.) in your family. If someone in your family who is not in 4-H or a Volunteer and would like to order a T-shirt, please have them fill out the form as well. Cost for the extra shirts will be \$5, payable at fair time.**
