

Cash Rents

Statewide cash rental rates increased across all land quality classes in 2021. Statewide average rental rates increased by 3.9% for top quality land, from \$259 to \$269 per acre. The cash rental rates for average and poor quality lands both increased by 4.6% to \$227 and \$183, respectively. At the regional level, the largest rental rate increases for top and average quality land were both in the Southeast region (11.5% and 6.4%), and the largest rental rate increases for poor quality land were in the North region (5.5%). Across all three land quality classes, the highest per acre cash rent was observed in the West Central region.

Rent as a share of June land value decreased slightly in 2021, suggesting that cash rental rates appreciated slower than farmland prices. Some portion of the difference in appreciation rates may reflect changes in expectations between fall 2020, when 2021 rents were negotiated, and the 2021 growing season. However, at least one respondent suggests that “fear of input prices for 2022 is going to restrict cash rents going up sharply” in the coming year.

Table 4: Average estimated Indiana cash rent per acre, (tillable, bare land) 2020 and 2021, Purdue Land Value Survey, June 2021

Area	Land Class	Corn bu/A	Rent/Acre		Change 20-21 %	Rent/bu. of corn		Rent as % of June Land Value

Looking Ahead

Statewide farmland prices established a new record high in 2021, expanding on the growth from 2019 to 2020. The growth in farmland prices is driven by complex combination of economic
