

ELKHART COUNTY 4-H LIVESTOCK UPDATE 2022

Welcome.....

We are excited that you have chosen to participate in the 2022 Indiana 4-H Youth Development Program! This packet is our Animal Science update for the year and contains most of the information you will need to know this year. I also ask that you review your club's information packet for more specifics for your project.

There are many events and programs to be looking forward to this year as well. One of them being our Outstanding Livestock Exhibitor Program (OLEP) and our County-Wide Livestock Skillathon program. Be sure to brush up on your animal science knowledge and use it in a competitive way! Our livestock projects are much more than showing your animal, it is about the knowledge and live skills you gain. Don't forget to keep your email address and contact information up to date with our office so that you are getting our newsletter the Friday 4-H Nugget!

If you have any questions or need assistance along the way this year please reach out to our office staff or your club leaders.

All the best,
Robby Kelly

Outstanding Livestock Exhibitor Program

New in 2022, we are announcing our Outstanding Livestock Exhibitor Program to highlight our hard work and talent of our youth! This new and exciting program will highlight the 4-H member's animal knowledge and showmanship skills. Each species will have a county-wide livestock skill-at-thon contest that will test the members knowledge of their species as well as the option to complete in an overall species livestock skill-a-thon. This event will take place later this summer. At fair those 4-H members participating in the Outstanding Livestock Exhibitor Program will also participate in their species showmanship class. A score will be given for this and combined with the skillathon score for their overall ranking. More information about this program will be released in March of 2022.

ELKHART COUNTY 4-H LIVESTOCK UPDATE 2022

Animal Information

What is a Premises ID?

If you are planning to show livestock (excluding rabbits, cats, dogs, and horses), it is important that you obtain a premises ID number from the Indiana State Board of Animal Health (BOAH). A Premises ID is a unique number assigned to the place where your animals are kept. This is part of the national animal traceability program, and allows for tracking and movement of animals. This is important for animal health and safety. You will have to have this information with you when you ID your animal for the 4-H program. Premises ID numbers are free, and easy to get. You can obtain yours by visiting BOAH's website at www.in.gov/boah or by calling 877-747-3038.

What is 4HOnline?

4HOnline is our web-based data management system. This is where you sign up information, projects and Animal ID information. This allows the Purdue Extension office and 4-H Club leaders to generate reports and other items that they need to inform you of events, and project information. You as a 4-H family can read our newsletters, update your contact information and sign up for events using the V2.4HOnline system. It is important if you move, or change a phone number or email address that you update that information in your family profile. To access this website go to:

<https://v2.4honline.com>

What is FairEntry?

FairEntry is our data management system for items related to the fair. This system is where classes are selected, auction information is generated, and show programs are managed. All 4-H Livestock members will need to log into this system using their V2.4HOnline profile to place their animals into their proper classes, sign up for showmanship and other club events. It is important that you complete this information when you receive the instructions at the end of May. Not completing this information makes the fair check in process take longer.

Youth for the Quality Care of Animals (YQCA)

YQCA is a great learning program that all 4-H members that are involved in: Beef, Dairy Feeder, Dairy, Lamb, Swine, Goat, Poultry and Rabbit projects need to complete each year. This program will allow the youth to learn more about:

- *Their role in food animal production
- *Food Safety
- *Animal Care
- *How to use the life skills members learn from their projects.

This program is nationally recognized and has the support of many of the national breed and commodity organizations. There are two ways that a 4-H member can complete this requirement, via online or an instructor led session. Both sessions do require you to be signed up on: <http://yqca.org> Please be sure to use your 4HOnline log in information to sign up to insure your information gets into our database. The online version is \$12.00 and the instructor led version is \$3.00 and is paid during online registration.

The requirement will need to be completed by **May 15, 2022** in order to be able to show at the Elkhart County 4-H Fair.

Session Dates & Times:

- | | |
|--|---------------------------------|
| *2/07 - 5:30 pm - ECCC - Showalter Rm. | 3/26 - 9:30 am - Fair Board Rm. |
| 2/24 - 6:30 pm - ECCC - Showalter Rm. | 4/19 - 6:30 pm - Fair Board Rm. |
| *3/07 - 5:30 pm - ECCC - Showalter Rm. | 5/10 - 6:30 pm - Fair Board Rm. |
| 3/21 - 6:30 pm - ECCC - Fidler Rm. | |

*Before Lamb Club Meeting

ELKHART COUNTY 4-H LIVESTOCK UPDATE 2022

Animal Identification

Identification is an important part of your animal project. This will assist in making sure that you keep good records, and know which animal is which. Below is the identification methods that are used by the 4-H program. This is the information that you will need to enter into the 4HOnline system, please check the club deadlines on the next page and verify with your club leaders if you have questions.

Species	County Required Animal Information	Additional State Required Animal Information
Beef & Dairy Beef Steers	840-RFID Tag & 5-digit County Tag	DNA Hair Sample
Commercial & Market Heifers & Dairy Feeder	840-RFID Tag & 5-digit County Tag	DNA Hair Sample
Beef, Registered Heifers	840-RFID Tag & Tattoo	DNA Hair Sample
Dairy Cattle Females	840-RFID Tag & animal's registered name & registration number (or dam's registration number)	DNA Hair Sample

Health Forms

Cats and dogs that will be used for the 4-H program are required to have vet sheets on file. This is for the safety of the animals and the 4-H members. These forms will need to be turned in before the animals can be brought to meetings and trainings. To get a copy of the forms you can go to the following links or hard copies will be available from Purdue Extension or your 4-H leader. Please be sure to read over the forms and complete the appropriate information.

Cat Vaccination Form:

Dog Vaccination Form:

https://extension.purdue.edu/4-H/_docs/projects/dog/dog-vaccination-form.pdf

Horse Vaccination Form:

https://extension.purdue.edu/4-H/_docs/projects/horse/horse-vaccination-form.pdf

Animal Lease Form:

https://extension.purdue.edu/4-H/_docs/projects/animal-lease-agreement.pdf

State Fair Information

The Indiana State Fair is a great way to showcase 4-H livestock projects from around the state. Many families have a tradition of going down every year to show and make new friends. The State Fair may have some different rules and animal ID requirements than we do in Elkhart County. Note that animals and or products sold in place of that animal are not eligible to show at the Indiana State Fair that same year. Most of their livestock deadlines are June 1, and more information can be found on their website at: www.indianastatefair.com

**ELKHART COUNTY 4-H LIVESTOCK UPDATE 2022****Club Specific Information**

Each species of livestock may have different requirements for ID's and other information. Under each one you will find the dates for each. Please check with the volunteers of your 4-H clubs to make sure that you have the most current information.

Beef - 2022
