Happy Holidays!
Wishing you a joyous holiday season and a New Year filled with peace and happiness!
From all of us at Purdue Extension Floyd County!

Please Note:
The Extension Office will be closed from Friday, December 22 through Monday, January 1. We will reopen on Tuesday, January 2. Our Educators will be unavailable during this time. If you wish to leave a phone message, it will be returned as time allows.
We will also be closed on
Martin Luther King, Jr. Day
Monday, January 15, 2024

WEATHER RELATED CANCELLATIONS

OUR POLICY STATES THAT WHEN NAFC SCHOOLS ARE CLOSED DUE TO INCLEMENT WEATHER, EXTENSION ACTIVITIES AND EVENTS THAT WERE SCHEDULED ON THAT DAY WILL BE CANCELLED.

It is the policy of the Purdue University Cooperative Extension Service that all persons have equal opportunity and access to its educational programs, services, activities, and facilities without regard to race, religion, color, sex, age, national origin or ancestry, genetic information, marital status, parental status, sexual orientation, gender identity and expression, disability or status as a veteran. Purdue University is an Affirmative Action institution. This material may be available in alternative formats.
Pressure canner dial gauges should be checked for accuracy every year. To make sure that your canned foods are safe to eat, your gauge must be accurate.

**Why is this important?**

Over time as the canner lid is handled, bumped, or just used, the calibration of a dial gauge can become inaccurate. If it is off just a little bit, you may not notice the inaccuracy. Inaccuracy can lead to food borne illness.

Dial gauges can be tested at the Floyd County Extension Office. **Testing is performed on Presto dial-gauge pressure canners only.** Weighted gauges do NOT need to be tested.

Please call Janet Steffens at 812-948-5470 for an appointment to have your gauge tested. Bring your canner lid with gauge and gasket for the most thorough assessment.

There is a $5.00 fee for testing. **Cash or check ONLY.**
SAVE CALORIES WITH FESTIVE RED AND GREEN SALAD

If you want healthy meals with lots of flavor and fewer calories, festive Red and Green Salad may be for you. It is a great recipe to make ahead for holiday meals and a 2/3 cup serving has only 70 calories. This recipe is from the Purdue Extension Dining with Diabetes program and is suitable as part of a diabetic-friendly diet. If you are struggling to plan diabetic-friendly meals and balance your blood sugars, watch for the Dining with Diabetes program in 2024.

The USDA My Plate guide for healthy meals tells us to fill half our plate with low-carb vegetables, and broccoli helps meet that requirement. One serving of Red and Green Salad has only 10 grams of carbohydrates. It is high in Vitamins C and A, and contains iron and calcium. In addition to being a filling salad, it is delicious and will become a family favorite.

Red and Green Salad
You will need:
- 4 cups broccoli florets
- ¼ red onion, minced
- 4 Tablespoons dried cranberries
- 3 Tablespoons sunflower seeds shelled, roasted and salted
- 3 Tablespoons low fat mayonnaise
- 2 Tablespoons cider vinegar
- 2 Tablespoons Splenda

Steps:
1. Wash your hands with warm water and soap for at least 20 seconds.
2. Rinse the broccoli under cool running water, drain, and cut into florets.
3. Put the rest of the ingredients in a medium-sized bowl and mix with a whisk or fork.
4. Add broccoli florets to the bowl and toss to cover them with the mixture.
5. Cover and store in the refrigerator until ready to serve.
6. This recipe serves six. Make it a day ahead and remember to refrigerate any leftovers within two hours.

For more information about the Dining with Diabetes program, call the Floyd County Extension Office at (812) 948-5470.

**TIME TO ENROLL IN 4-H**

Youth and volunteers need to sign up at v2.4honline.com by JANUARY 15 to keep enrollment current, receive important emails, and covered by insurance. Program membership is valid October 1 - September 30, 2024.

- $5 K-2nd grade
- $20 3rd-12th grade

Deadline January 15

_____

**Mark your Calendar**

Family Livestock Meeting  
January 10, 6:30 PM

This is an informational meeting for 4-H’ers interested in showing animals at the Floyd County Fair, June 5-8. Meet the livestock superintendents, find out what paperwork you need and get questions answered. Look for a reminder email coming soon.

Wednesday  
January 10, 2024  
6:30 PM

_____

Looking Ahead...........

Need help registering Fair projects in Fair Entry? Floyd County Extension office will extend office hours until 6 PM on Thursday, May 2 to assist.

Fair Entry

Purdue University Cooperative Extension Service is an equal opportunity/equal access/affirmative action institution. Please let us know if you need a reasonable accommodation to participate in this program.
Volunteer Required Training
Any adult interacting with youth must enroll in 4-H Online and take the required online minor’s training before attending 4-H meetings, events, etc. In-person trainings will not be offered.

SIGN UP

Got Questions?
Sam's got answers.
Ask questions during Virtual Office Hours 1st & 3rd Wednesday.

Bailando Llama Club is back!

THANKS FARM FRIENDS 4-H CLUB FOR DONATING HOLIDAY SHOEBOXES FILLED WITH GIFTS. YOUR GENEROSITY IS GREATLY APPRECIATED.

Check your Spam or Junk file for RegMax broadcast emails. If you are an approved member and are not receiving emails from us, go into your settings in your email provider to allow emails from “RegMax - Purdue Extension/Indiana 4-H” and/or “RegMax - Indiana 4-H Judges Registration” for those who are Judges.
We would love to see more Demonstrations at the Floyd County Fair. Check out the Communications guidelines on our website: https://extension.purdue.edu/county/floyd/

It’s not too early to start on projects for next year's fair. Guidelines found at the website:

Project Manuals are found online or some are available for purchase at our office. Call 812-948-5470 for availability.

Where does a LEGO project go?

Legos would fall under Arts & Crafts in Construction Architectural Replica Exhibit according to the Indiana State guidelines. Use your imagination! This doesn’t have to be a farm scene. We would love to see Gettysburg scene, prairie field, Star Wars or other ideas exhibited.

Where do Models go?

A good rule of thumb is............. if it needs painted and glued, then the project should go in Arts & Crafts under Model Craft.
Safe Shooters are now two separate clubs. Look for Firearms - Safe Shooters and Archery – Safe Shooters when signing up for a club. Choose Shooting Sports for the project.

**NEW**

STEMbots
Master Builders and STEM Club are merging.

**Welcome**

Please welcome these New Club Leaders:
- Abby Kreutner – Bailando Llama Club
- April Geltmaker – Featherd Friends Poultry Club
- Drew Terrell – Safe Shooters Firearms
- Kyla McCollum – Shamrocks
- Erin & Matt Uhl – Blue Ribbon Rabbit Club

A special THANKS to Kaitlyn Simpson, Sue Demers, and Rachel & Kent Schuetz who have volunteered with these clubs. Well Done!

Send Sam your idea for a 2024 Fair Theme

Upcoming Volunteer Workshop Series

Workshops are offered when at least 5 volunteers have put in an RSVP either by calling 812-948-5470 or emailing Sam at mccolluj@purdue.edu.

- **Innovation & Leadership**
  January 23, 6-8 PM at Floyd County Extension office
  Develop techniques to think creatively when working with youth.

- **Importance of STEM Club Programming**
  February 3, 10-11 AM Floyd County Extension office.
  How to introduce STEM into daily club activity regardless of subject.

- **Career Development Event Workshop for Beginning Coaches**
  February 10, 9:30 AM - 2 PM at Orange County Community Center
  Learn what CDE’s are, how to get a team going and what contests are available.

- **4-H Fair Tips & Tricks Poster Workshop**
  February 19, 5:30-7:30 PM at Floyd County Extension office.
  Learn what the judge is looking for in a project and how to make a blue ribbon poster.

- **Fair Entry & Fair Showcase Tips & Tricks**
  March 13, 6-7 PM at Floyd County Extension office.
  Get a preview of how to register fair projects in Fair Entry.
Be sure to check out Gina’s newest video series: 

*Beginning Gardening!*

When it comes to gardening practices...  
Do you know what you should be doing to your garden?  
Do you know when you should be doing them?

Follow along with Gina as she gives you the beginning tips on gardening! Check out her videos on YouTube!

---

**Soil Testing**

Soil testing can help you decide how to amend your garden or lawn depending on what you’re planting by looking at the calcium, phosphorous, potassium, and pH levels!

To collect soil for a soil test:

- Remove surface debris, such as mulch, and dig down 4-6 inches
- Break up any large lumps and ensure there are no rocks, sticks, or other debris in your soil sample
- Place at least one cup of soil ready for the test in a plastic bag or cup and bring to our office!

Soil test are $20 per sample. Cash or check ONLY!

You will receive your soil test results in the mail approximately 2-4 weeks after drop-off.

---

Would make a great gift for the holiday!
