

Project Title: Recycling

Description:

Youth will apply the principles of recycling to a project as well as learn about the importance of reusing and recycling post-consumer materials.

Local Fair Entries:

This is a local only project.

Exhibit Guidelines:

All posters, notebooks, and display boards must include a reference list indicating where information was obtained, giving credit to the original author, to complete the 4-H member's exhibit. This reference list should/might include web site links, people and professionals interviewed, books, magazines, etc. It is recommended this reference list be attached to the back of a poster or display board, be the last page of a notebook, or included as part of the display visible to the public. A judge is not to discredit an exhibit for the way references are listed.

Posters are to be 22"x28" and displayed horizontally and placed in a clear plastic sleeve or covered with clear plastic to protect contents. Display boards should be designed to sit on a table using no more than 36" of tabletop space. Space should be left in the lower right hand corner to place an exhibit tag provided by Purdue Extension staff.

Judges evaluating exhibits should recognize individual differences and creativity, therefore using information in this document as a guide rather than a requirement.

Exhibit Class Guidelines:

Beginner (grades 3-5 suggested)

Choose one of the following options:

- Create and exhibit one age/grade appropriate recycled project or display.
- Create and exhibit one age/grade appropriate recycling/environmental education poster, notebook or display.
- Prepare and present (in person or recorded) a presentation that is age/grade appropriate about recycling/environmental education.

Intermediate (grades 6-8 suggested)

Choose one of the following options:

- Create and exhibit one age/grade appropriate recycled project or display.
- Create and exhibit one age/grade appropriate recycling/environmental education poster, notebook or display.

- Prepare and present (in person or recorded) a presentation that is age/grade appropriate about recycling/environmental education.

Advanced (grades 9-12 suggested)

Choose one of the following options:

- Create and exhibit one age/grade appropriate recycled project or display.
- Create and exhibit one age/grade appropriate recycling/environmental education poster, notebook or display.
- Prepare and present (in person or recorded) a presentation that is age/grade appropriate about recycling/environmental education.
