**ELECTRICITY** - Each commercial display area will have access to one 110 volt electrical outlet with 500 watts (4.5 amps). Any other voltage and/or higher amps needed above this basic service will require extra wiring by the 4-H Fairgrounds electrician. The vendor requesting the additional service must pay a charge of \$30.00 for each additional circuit installed. The Commercial Tent Committee will need to know of these extra service requests by **July 5, 2024** in order to forward requests to the electrician. **Any requests received after that date will be assessed a \$15.00 late fee** in addition to the regular charge. All receptacles are ground fault protected to comply with national and local electrical codes. All appliances/equipment must have 3-wire grounded cord and may be inspected by the 4-H Fairgrounds Electrician. If any appliance/equipment causes the circuit to be interrupted repeatedly, the vendor will be asked to repair, replace or remove that piece of equipment.

Call the Extension Office (317-776-0854) and ask for Bernie if you have questions. The 4-H Council hopes the 2024 Hamilton County 4-H Fair will be safe and successful for all.
