INDIANA 4-H NEEDS YOU TO BE A

Why should I be an Indiana 4-H Broadband Influencer?

There are a lot of different ways to connect to the internet. Some of them are *very* fast, and some of them are *very* slow. We would like everyone in the state of Indiana to be able to use the internet at fast speeds. While it might help you play games and watch videos more easily, it also can help people who are looking for jobs or trying to communicate, do business, or do schoolwork.

The FCC, or Federal Communication Commission, can't help everyone get fast internet unless they know all the places the internet is installed and how fast it is in each location.

I have more questions!
