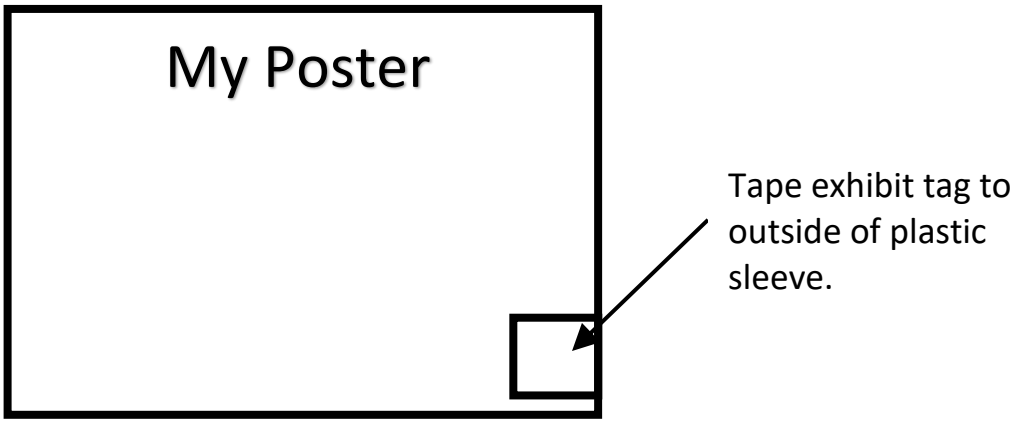
Where Do I Place My Exhibit Tag?

All Posters, Notebooks (including Home Environment), Fine Arts, and Other Similar Displays

- Securely tape to the bottom right-hand corner, on the ***outside*** of any plastic covering. Tags must be on the OUTSIDE of the plastic sleeve so award stickers may be placed on tag after judging.



Foods and Food Preservation

- Securely tape to the **outside** of the Ziploc bag or other plastic covering/box.
- If the exhibit is frozen, cover the tag with plastic wrap and use a rubber band to secure tag to exhibit. The judge will remove the tag during judging if needed.

Sewing

- Use a straight pin to fasten the exhibit tag to the left shoulder or left waistband of the garment.
- For non-wearables, pin the tag at the bottom right hand corner or other easily visible spot for display. The judge will remove the tag during judging as needed.

Gardening

- Bring loose tag(s) with exhibit(s) to check-in. Tag(s) will be attached to the provided plate(s) for you.

Floriculture

- Securely tape the tag to the exhibit or hole-punch the tag and tie to the vase, etc.

Arts & Crafts (General), Construction & Architectural Replica, Electricity, Fine Arts, Model Craft, Needlecraft, Woodworking, and Others Not Listed:

- Securely fasten the tag in an easy-to-see location on the exhibit for display during the fair. You may also hole-punch the exhibit tag and tie to the project.

Note: *This page only provides information about the exhibit tag placement. Does your project also require a skills card, recipe card, or other information to be brought to check-in with the exhibit? Please refer to the 4-H Info Book for specific information about your projects!*
