

PURDUE EXTENSION'S **INVASIVE SPECIES SIGNATURE PROGRAM**

Invasive species are a major threat to Indiana's ecosystems and economy, causing significant harm to native plants, animals, and habitats. These non-native species often outcompete and displace native species, leading to a loss of biodiversity and increased costs for management and control.

In this educational series led by *Purdue Extension* experts, you'll learn how to:

- Identify, report, track, and control invasive species in aquatic, forest, agricultural, and home landscape settings.
- Choose and incorporate native plants into your home landscaping.

Don't miss out on this opportunity to make a positive impact!

Tuesdays in June: 5-7pm at Fusion 54- only \$35 for four classes! Limited seats available!

Module 1 – June 4 – Introduction to Invasive Species

Module 2 – June 11 – Reporting, Recording, and Tracking

Module 3 – June 18 – Invasive Forest Plants
