COMMUNICATION AND CONTACT INFORMATION

Staying informed is key to having a positive 4-H experience!

In this new year, let's stay connected!

EMAIL (Primary Method – 95% of All Communication)

Most of our announcements, reminders, deadlines, and updates are sent via email through 4-H Online.

Please be sure that the email account tied to your 4-HOnline profile is:

- Able to receive emails from 4-HOnline
- Checked regularly
- Not filtering messages into spam or junk folders

If you did not receive a welcome or enrollment approval email, please check your spam folder and add 4-HOnline as a trusted sender.

Important Email Notes:

- AOL, Yahoo, and Hotmail email accounts typically block or filter 4-HOnline messages. We strongly recommend using an alternative email provider.
- If using a work email, please be sure your employer allows mass messages and be aware that you will receive frequent communication from us.
- Please DO NOT unsubscribe from 4-H emails. Even if a message does not apply to your child, unsubscribing removes you from essential updates—and your child may miss deadlines or opportunities.

SOCIAL MEDIA We also share reminders, event promotions, deadlines, and updates on social media.

Follow us on:

- Facebook: Purdue Extension – Orange County
- Instagram: orangeco.in_4h

QUARTLY NEWSLETTERS Every quarter, we send a newsletter packed with updates for 4-H families and Extension programming in all areas.

POST MAIL

Occasionally, we send important reminders or documents through standard mail (“snail mail”).

Please make sure your mailing address in 4-HOnline is current. If you have moved, please notify our office so we can update your records.

**All of these methods ensure you receive the information needed to
have a successful and positive 4-H experience.**

Orange County 4-H has been awarded a **\$10,000 Smithville Foundation Grant** to launch Nourish & Lead, a youth-led countywide service, nutrition, and leadership initiative. This project will support the construction and maintenance of Community Blessing Boxes across the county and fund a new 4-H Meal Program to help youth build real-world skills in budgeting, food safety, and healthy eating.

We're excited to kick off with Blessing Box installation and maintenance rolling out by Spring 2026. A huge thank-you to the Smithville Foundation for supporting youth leadership and community service—and thank YOU for helping us make a difference!

If you know of a Blessing Box needing maintenance, or if your organization, church, park, or business is interested in being involved with the initiative or if you would like to request a newly constructed box, please contact Veronica Portillo at vportill@purdue.edu or call the Orange County Purdue Extension Office at 812-723-7107.

Thank You
to everyone

to everyone who joined us at our annual meeting December 1st! Great fun was had with everyone participating in our civic engagement activity to assemble Holiday Meal Kits and to disburse forty of them, along with hygiene kits, to each blessing box in Orange County! More information will be shared soon with club leaders about our upcoming meal program and Blessing Box stocking initiative this program year.

BLESSING BOXES
packed during 2025 Annual Extension Meeting!

Orange County 4-H STEM Enrichment Programming

Thanks to funding secured by the Indiana 4-H Foundation and gifted by the Indiana Energy Association, Indiana Soybean Alliance, and Indiana Corn Marketing Council, Orange County was able to make an investment of \$1,300 in STEM programming for local 4-H youth, preparing them to be #BeyondReady for the future in a rapidly changing world.

This project will provide 3D pens, filament for our MakerBot Replicator Mini+ printer, and MicroBits to support a variety of STEM workshops and club activities

If you are interested in hosting a STEM enrichment program, using these or other resources, please contact Julie Harris - carrell@purdue.edu.

Orange County 4-H Council

4-H Council Elections held at Annual Extension Meeting on December 1, 2025.

Orange County 4-H Council welcomes two new members as we move into 2026!

Taisha Robbins

“ I’m currently a junior at the Kelley School of Business at Indiana University, studying business management and data analytics. I have accepted an internship at Cintas and plan on joining the Management Trainee program after I graduate.

I wouldn’t be where I am without 4-H. Orange County 4-H gave me my work ethic, dedication, and self-discipline. I’m excited to be able to have the chance to be on council and give back to the community that made me who I am.”

Michaela McCabe

Michaela is working toward a career in early childhood education while staying actively involved in the agriculture industry, by raising and showing high-quality market lambs. Her 4-H experience has helped shape her responsibility, confidence, and passion for agriculture, giving her the life skills that guide her goals today. Through her involvement in agriculture, she hopes to contribute to youth livestock programs, promote agricultural awareness, and support the development of the next generation of young producers.

She chose to run for 4-H Council because she wants to give back to a program that has given so much to her. She hopes to bring strong leadership, fresh ideas, and a positive attitude to support members and strengthen the 4-H community.

She is excited to meet more youth, help plan engaging activities, and ensure every member feels included and supported.

Calling all Springs Valley residents! There is an OPEN position on the 4-H Council as a representative! Call our office for more information! 812-723-7107

Remember when you were a kid, navigating life's challenges?

The world's changed, and it's moving fast. It feels like now it's even harder and moving even faster than when we were kids.

And Yet for over 120 years, 4-H has been there!!

Just like generations before, they're preparing today's youth to be beyond ready —

Ready to serve,

Ready to build,

Ready to conquer,

Ready to succeed.

Through dynamic programs that are proven to work, and building skills like -

Leadership,

Problem-solving,

Team building,

and confidence.

4-H is preparing the next generation to be -

B e y o n d R e a d y !

V2.4HONLINE.COM

JOIN US IN MAKING A DIFFERENCE!

4-H volunteers are the heart of the 4-H program. Their time, energy, and dedication are what make hands-on learning, mentorship, and leadership development possible for thousands of youth across the country as well as in Orange County. From organizing club meetings to guiding project work, volunteers help create safe, supportive environments where young people can thrive. Their role is not just supportive—it's essential.

Being enrolled and approved as a volunteer in the current program year is vital. It ensures that volunteers are up-to-date with training, safety protocols, and policies that protect both youth and adults. Approved enrollment helps maintain the integrity and quality of the 4-H experience, and it allows volunteers to be covered by liability insurance and recognized for their service. Staying current isn't just a box to check—it's a commitment to excellence, safety, and the youth we serve.

Orange County 4-H Program

Need for **Adult Volunteers** to help us offer another **Chef University** during spring break **March 16-18 2026!**

Daily Time Commitment: ~4-5 hours/day (exact shifts TBD, program timing estimated to be from 10:00-2:30 with prep before and cleanup after) Location: 4-H Block Building
Contact: Veronica Portillo vportill@purdue.edu

What is *Chef University*?

Chef University is a free, hands-on cooking experience for 3rd–5th graders offered during Spring break. Over three days, youth will rotate through fun and educational stations focused on cooking, teamwork, nutrition, and cultural exploration. They'll prepare real meals, learn valuable life skills, and grow their confidence in the kitchen.

We're looking for volunteers to help bring this exciting program to life!

Volunteer Info

We welcome volunteers of all experience levels and availability. Whether you can join for one day or all three, your time is appreciated! Volunteers will assist with:

- Station setup & cleanup
- Cooking instruction and safety supervision
- Youth engagement and guidance
- Handout distribution
- General support

Community Impact

Orange County youth often lack structured enrichment during breaks. Chef University fills this gap with fun, inclusive, and skill-building programming—empowering kids with practical cooking knowledge and nutritional awareness. This will be offered as a 4-H Spark Club to provide food education through hands-on learning and further promote the program.

Note: Youth participant sign-ups for Chef University will open once we confirm volunteer support and finalize program logistics (including cost and scheduling). Your help as a volunteer is essential to making this program possible!

Volunteer Sign Up:

Orange County 4-H Program

We're looking for 4-5 dedicated volunteers to help relaunch our 4-H Shooting Sports program!

Instructor Certification Training April 10-12, 2026

Help our youth learn:
safety, responsibility, and outdoor skills all while having fun!!

No expert experience is required -
just enthusiasm and a willingness to work with youth!

Teen Leadership Weekend

Extension - 4-H Youth Development

INDIANA 4-H

TEEN LEADERSHIP WEEKEND

Where: Camp Tecumseh
When: March 27-29, 2026
Ages: Grades 7-12

CONFERENCE INFO

The Teen Leadership Weekend is an exciting opportunity for 4-H members to build their leadership skills, connect with peers from across the state, and prepare to make a positive impact in their communities. Held annually, this conference is designed for youth in grades 7-12 who are ready to take their leadership journey to the next level. Participants engage in hands-on workshops, interactive team activities, and inspiring sessions led by experienced mentors and fellow 4-H members. With a focus on personal growth, teamwork, and service, the weekend empowers youth to step into leadership roles, develop practical skills, and create lasting memories!

CONTACT YOUR
LOCAL PURDUE

PURDUE AGRICULTURE
AND
NATURAL RESOURCES

Our virtual BEGINNER FARMER PROGRAM can help!

8-session virtual program

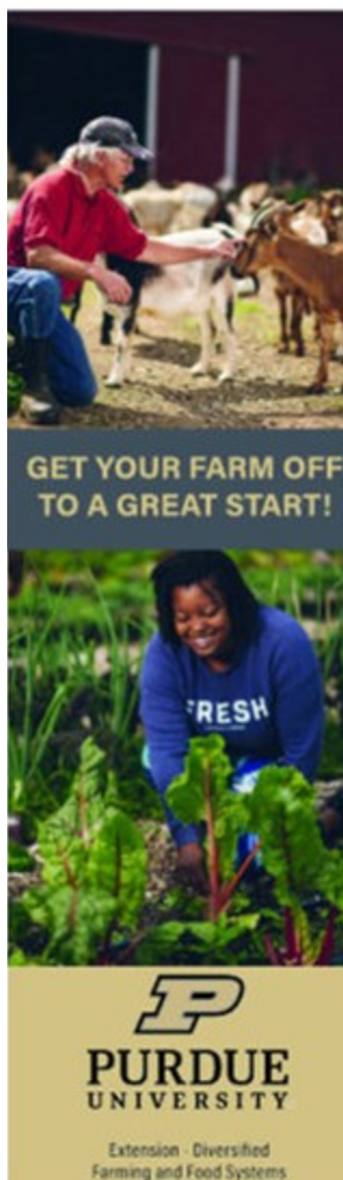

Farmers will: set goals
identify assets and challenges
become aware of resources
find success through creation of action plan

The program is offered to: beginning farmers with farms of any size, but the typical audience tends to be those with smaller farms, those with urban farms, and people wanting to launch a farm that includes direct-to-consumer sales.

Registration is \$90 and closes on Jan. 5.

-includes a digital copy of the Beginning Farmer workbook
