

Andie Myers

Andie is the daughter of Candace & Royal Myers and a sister to Clancy. She is a 10 year member of the Happy Humming Alpaca 4-H club. Projects that Andie has completed include sheep, beef, alpaca, foods and arts & crafts.

Her favorite projects have been her livestock ones because she gets to collaborate with other showmen, knowledgeable former showmen, administration, judges and her animals to learn and grow every year.

Andie has volunteered in the community by helping to teach young showmen how to handle, train and show their animals and she helps at the We Care Auction. She has been a part of the Drafting and Design program at Prosser for the last two years.

Andie has received several Overall Grand & Reserve Grand awards for her Beef and Sheep projects. She has earned her CAD technical certificate from Ivy Tech. Andie plans to attend Ivy Tech's Design Technology program for two years and then on to Ball State University to study Architecture.
