

Becky Foster

Becky is the daughter of Bill & Bobbie Foster and a sister to Andrew, Lyndie and Emily. She is a 10 year member of the 4-H Impact club.

Projects that Becky has completed include fine arts, swine, poultry, rabbits, shooting sports, robotics, cake decorating, sewing and photography. Her favorite projects were fine arts and photography. She likes fine arts because drawing and painting bring her joy and calmness and allows her to create things with a purpose. She enjoys photography because she can show people how she sees the world.

Becky has helped our community through EMPOWER by giving opportunities to youth for anti-drug activities and at their Halloween bash. She has volunteered to teach the breaststroke to the Scottsburg Middle School swim team, served at the local food pantry, and helped with various 4-H events and the VEX robotics team. Becky has competed in Round Robin the last two years in 4-H and holds a few swim records at Scottsburg High School. She was captain of the cross country and swim teams and is a member of the National Honor Society.

Becky plans to attend Ball State University to study Architecture, then begin to help our world through eco-friendly and sustainable housing.
