

Emma Taylor

Emma is a 3 year member of the Hare & Feathers Small Animal 4-H club. She is the daughter of Matt & Kriste Taylor.

The major projects that she has taken in 4-H include showing rabbits, chickens and waterfowl.

Emma's future schooling/job plans include attending Purdue Polytechnic for mechanical engineering.

The greatest contribution 4-H has made in Emma's life is that "through 4-H I believe I have gained valuable skills in agriculture, which have helped me develop personal growth."

Emma describes the most important thing she learned from her participation in the 4-H program "It has taught me the valuable lesson of leadership through service of others. Having hand-on experience has helped me develop a strong sense of responsibility. It has also demonstrated to me the importance of dedication and hard work."
