

Hailey Laney

Hailey is a 10 year member of the Hare & Feathers Small Animal 4-H club. She is the daughter of Michelle Beare.

The major projects that she has taken in 4-H include rabbits, chickens and woodworking.

Hailey's future schooling/job plans include continuing in the work force and keeping active as a volunteer firefighter.

The greatest contribution 4-H has made in Hailey's life is that it "has been a wonderful experience for myself. I have learned how to care for, tame, and show certain animals as well as how to assist others, communication, determination and respect.

Hailey describes the most important thing she learned from her participation in the 4-H program "I have learned how to grow as a person and push myself to do things I may not have thought was possible. 4-H has allowed me to make friends, family and bonds that I couldn't achieve elsewhere. I wouldn't change my experiences for anything and would encourage others to start this amazing opportunity. It's never too late!"
