EMERGENCY PREPAREDNESS FOR RURAL FAMILIES

4-PART MULTISTATE WORKSHOP SERIES

March 5 | March 7 | March 12 | March 14

ABOUT THE SERIES

Emergency Preparedness for Rural Families is a four-part extension workshop produced in collaboration between women in agriculture programs in Indiana and Nebraska.

It will focus on farm and ranch emergency management, first aid, fire protection, and hazardous materials.

Each state will host a number of workshop sites on each date, featuring simulcast keynote speakers, as well as local speakers and activities at each location. Dinner will be included and a virtual option is available as well. According to the U.S. Bureau of Labor Statistics, agricultural occupations have high rates of work-related injuries and deaths. While not all emergencies result in bodily harm or death, they also may cost rural families in other ways.

Attending this series offers you the chance to learn preventive practices, set up a plan to deal with emergencies before they occur, and be more comfortable reacting to emergencies.

This project was supported by a grant from NCRCRD through funding from USDA NIFA Award #2022-51150-38141
