

Child Development Level B Achievement Sheet

Each year you should complete a minimum of three activities. Each activity should be from a different chapter. Within the two-year project period, you should have completed at least one activity from each chapter. Write the month, day, and year beside each of the activities you completed. Have your project helper initial that you have discussed the activity with them. If you choose to do an action demonstration, please complete that section.

What I Did in This Project

Date Completed Month/Day/Year
