Horn	Skirt	Pommel	Seat	Finder	Cinch
Cantle	Seat Jockey	Stirrup	Latigo	Rear Dee Ring	

Answers can be found in the OSU Beginning Horse Management manual 4-H 174

**1. Please answer the following questions**

How many times a day does a healthy horse defecate? Urinate?

How can you determine a horse's heart rate if you do not have a stethoscope?

Prevention of parasite infection is based on what three things?

How can dewormer be given to a horse?

Horses should be dewormed in the \_\_\_\_\_ at least \_\_\_\_ hours before placing them out on clean pastures.

**2. Determine whether the following statements are True or False. If false, please explain why.**

T F A new born foal will have a heart rate between 90 and 130 bpm. \_\_\_\_\_  
\_\_\_\_\_

T F The normal respiration rate for a resting horse is 8 to 16 breaths per minute. \_\_\_\_\_  
\_\_\_\_\_

T F The normal temperature of a horse is 101.3. \_\_\_\_\_  
\_\_\_\_\_

T F The heart rate of a horse can be taken by placing a stethoscope on the left side of the horse's body, directly behind the elbow. \_\_\_\_\_
