Please refer to Purdue Extension Indiana Website: www.extension.purdue.edu/4h/Pages for exhibit requirements.

Project Introduction

The educational 4-H sheep program and related activities (such as workshops and tours) provide youth with a fun and hands-on learning experience which develops both sheep subject skills (such as nutrition, housing, and health care) and life skills (such as responsibility, decision-making, nurturing, and communications) under the direction of caring adults.

Animals DO NOT have to be a winner at the County Fair to show at the State Fair. Visit the Indiana State Fair website for more information.

Exhibit Requirements

Project requirements for completion: All sheep project members must answer a 10 question worksheet and complete information in Green Folders / Recordbook before sheep check in. The questions are available from the 4-H office or online. Animals must be enrolled at v.4honline.com by May 15, 2021.

All posters, notebooks, and display boards **MUST** include a reference list indicating where information was obtained, giving credit to the original author, to complete the 4-H member's exhibit. This reference list should/might include web site links, people and professionals interviewed, books, magazines, etc. It is recommended this reference list be attached to the back of a poster or display board, be the last page of a notebook, or included as part of the display visible to the public. A judge is not to discredit an exhibit for the manner in which references are listed.
