Purdue launches Fast Start program for Indiana high school students

Purdue president Mitch Daniels announced a new program that will make college more affordable for students who live in rural and inner-city communities. The program is called **Purdue Fast Start** and is designed to help Indiana high school students earn access to up to a year of college credit through free online courses and the corresponding **College Level Examination Program (CLEP)** exams. This program was made possible through Purdue university's partnership with Modern States.org. The website has 30 free online courses that will prepare students to take the college level examination program classes otherwise known as CLEP. When students pass five of these examinations they will automatically be admitted to Purdue University. While these tests would usually cost the students money, that's not the case with this program. Modern States will pay for students to take the tests. This is something Purdue University President, Mitch Daniels says will make college more accessible to students who live in rural and inner-city communities.

"We are not only trying to provide them with a first-class education but every day, to try and instill in them the confidence that, yeah, you belong," said Daniels. Passing five CLEP exams – the equivalent of one semester – can save students and their parents a semester, and almost \$11,000. Passing 10 CLEPs – the equivalent of one full year – can save more than \$21,000. Every individual CLEP passed is a big savings as well. The Fast Start option also can move them toward early graduation and early entry into the workforce. Modern States.org is giving Purdue a one-million-dollar gift, allowing for up to ten-thousand CLEP exams to be given to Indiana students free of charge.

"There is a test fee that college board charges and we've been reimbursing that at Modern States and we are going to do a special gift to support Purdue," said Steve Klinsky the CEO of Modern States.

Modern State's website has free courses students can take to prepare themselves for the CLEP test. Once students have completed the online course they can apply for a voucher to take the CLEP test for the subject they study. The goal is to encourage more students in rural and inner-city areas to attend college.

"We hope that this will lead to a significant increase in young people who otherwise may not even make the attempt, to know that there is a way to Purdue for them." added Daniels.

Rural school advocates say this program will not only be beneficial to students but rural communities in general.

"We think this is a great opportunity for students... but also for adults who might be looking to get those additional few credits to get the confidence to move on to an associate's degree and eventually bachelors," said Chris Lagoni the Executive Director of the Small and Rural Schools Association.

Purdue Fast Start will offer support to high school students enrolled in the program, helping guide them through taking courses and tests and navigating admittance to Purdue. The students also will have access to Purdue alumni and friends for mentoring if desired. Once Fast Start students accept admission into Purdue, they will be known as Klinsky Scholars. The program officially launches in the fall of 2020, with the first students being granted admission for the fall 2021 semester.

Yes, we can meet again!

4-H Club Leaders! It's time to get our club meetings up and going again. You can meet here in our building or in your regular spaces.

You will need to complete the proper Covid-19 Safety paperwork and submit it to our office at least three weeks before the meeting date. Once it is approved by Purdue Extension we will put your meeting on our calendar. You need only complete this form once if this is going to be a regular recurring meeting at the same location.

If you would prefer to set up virtual meetings and would like training on doing these please contact our office at 812-738-4236.

You can join a Zoom meeting simply by using your phone!

This is helpful when:

- You don't have a smartphone
- You can't connect to a network for video or computer audio
- You don't have a microphone speaker on your computer

How to join a meeting by phone only:

1. Dial in the in-country number
2. You will be prompted to enter the meeting ID followed by #.
3. If the meeting hasn't started yet, press # to wait.
4. You will be prompted to enter your unique participant ID. This only applies if you have joined on the computer or mobile device or are a panelist in a webinar. Press # to skip.
5. You may be prompted to enter a meeting passcode followed by a #. This will be included in your invite provided by the host.

If you have ANY questions on how to join a virtual 4-H meeting, please don't hesitate to reach out to the office at 812-738-4236 and they will be happy to assist.

Donations Needed!

Help the **Harrison County Conservation Corp** throughout the month of November. Pick anything or everything on the list below. All donations will stay in Harrison County. A donation box will be available at the Harrison County Purdue Extension Office downstairs lobby.

What is Mini 4-H?

Mini 4-H is a program designed to encourage positive development of children in kindergarten through second grade. The goal of Mini 4-H is to help young children create friendships outside the family; explore the way in which things work; practice both small and large muscle control; and think about the ways people work together on projects.

Mini 4-H Cooking Around the World Virtual Series

Hello Mini 4-H'ers! Ms. Mary here.

Are you ready for experimenting in the kitchen? In past years we've been able to prepare and enjoy a meal at the Extension office. Since that is not possible this year, I've come up with a fun and different alternative.

Over the past couple of months, we've been filming a 'Kid's Cooking Camp' series of Facebook videos.

These videos are geared toward our younger 4-H'ers, but older children who are interested in cooking may find these recipes fun to make and of course to eat.

We'll be preparing foods from five countries around the globe. The countries we will focus on during the series are France, Mexico, England, Japan, and Italy.

Since we film as we go, usually without cutting and redoing a scene, you may even be able to catch a few bloopers. So pull up a chair, pull out your measuring cups and spoons and join us as we travel the world through Fun and Food. Videos will be coming soon on our YouTube Channel!

2021 Upcoming Workshops for Mini 4-H'ers!

- It's All About Owls with guest speaker, Jimmy Bliss
 - Making Mosaics
- Gardening and Mother's Day craft with guest speaker, Miranda Edge
 - Mini Day Camp
 - Painting without a Paintbrush Part 2
 - Luscious Lunch Cooking Class
 - Saturday with Santa

Beginning in 2021, ALL livestock and Companion Animals have an ID Deadline of May 15th. May 15th is a Saturday this year, so the system will allow for animal enrollment until the following Monday, May 17th. This is for 2021 ONLY.

This year, Indiana 4-H will enforce that a single animal can be included in ONE FAMILY profile ONLY. Animals will not be shared between 4-H members outside of the same family household.

Beginning this program year, the “Minors Safety Training” is now an annual requirement of Indiana 4-H. Moving forward, this will be a part of the volunteer enrollment process. Volunteers will not be considered enrolled, active volunteers until this training is completed. If you are unable to complete this training online, please contact the educator to set up an appointment for an in-person training.

The following projects will be updated for the 2021 year:

Beekeeping

- Added broader poster exhibit topic choices

Computer

- Added poster and display board exhibit options
- Added Graphic Design and Computer Art exhibit option
- Clarified language and added broader exhibit skill options

Electric

- Updated requirements and updated resources. Manual will now be thumb drive.

Fashion Revue

- No changes but will have its own web page rather than included in sewing exhibit requirements.

Food Safety

- Updated policy.

Photography

- Added cell phone print option

Sewing

- Added broader exhibit options.
