This is an important educational opportunity for 4-H livestock members. Making this an exhibition rule is how Indiana 4-H is ensuring that 4-H members learn about quality assurance (though actually, the program has nothing to do with animal exhibition). Indiana 4-H is requiring this program so youth learn best management practices with their animals. The YQCA program will:

- Ensure that youth livestock exhibitors are better prepared to be ambassadors for animal agriculture.
- Ensure that animals from youth livestock programs are treated with the utmost care.
- Ensure that 4-H members are contributing to a safe, wholesome food supply for consumers.
- Enhance the future of the livestock industry so that today's youth producers can become more informed producers, consumers, and/or employees of the agriculture and food industry.

Test out option: This is only available to youth in the first year of intermediate (age 12), senior (age 15) and young adult (age 19). There is no test-out option for juniors. At the bottom of the "Course List" page are the test out options for these age levels.

- The test consists of 50 questions and requires a pass rate of 80% or better for certification.
- If passed, the certification will last through the end of a user's age level (intermediate – ages 12, 13 and 14; senior – ages 15, 16, 17 and 18; and young adult – ages 19, 20 and 21.)
- The intermediate and young adult test-out course will cost \$36 (\$12 x 3 years of certification) and the senior test-out course will cost \$48 (\$12 x 4 years of certification.)
- Users will have one chance to take the test-out option. If they fail, they will not be provided another opportunity for that level of certification. If the youth passes, payment for the completed test out course will be required after the completion of the test. No payment is required to attempt the test.
- Participants attempting and not passing will be prompted to take the instructor-led training or web-based training annually.
