Family Enrollment of Animals

Animals may be co-enrolled within the same family (Siblings and step-siblings). The animals may be listed under a single 4-H member, and at a later point, the animal may be associated with a different sibling by contacting the Purdue Extension Office in your county of 4-H enrollment. **With this capability in 4HOnline, animals do not need to be entered under each 4-H member in the family.** The exhibit management program will allow a member to select to exhibit any animal identified by the family in 4HOnline. It is suggested that at least 1 animal be identified by each member enrolled in the project.
