# FEEDING TOMORROW'S FUTURE TODAY

## *Backpack Program*

Feeding Tomorrow's Future Today is a Wells County 4-H initiative that supplies food bags to students facing food insecurity. You can make a difference in our fight against hunger in Wells County by sponsoring some of the estimated 4,900 bags that will be distributed to students this school year. For other ways to contribute, and to help us fulfill our 4-H pledge of "using our hands for larger service in our community," contact the Wells County Purdue Extension Office at 260-824-6412. Thank you for your support!
